<b>3 The Structural Characteristics of the Banking System in the Age of the Dual Monarchy (1867–1918)</b>	23
3.1 The stages of banking development	23
3.2 The institutional settings of the banking system	25
3.3 The role of foreign banks	31
<b>4 The Dimension of the Hungarian Banking System</b>	37
4.1 The size of the banking network	37
4.2 Budapest – national banking centre with international aspirations	39
4.3 The position of the Hungarian banking system within Europe	51

<b>5 Spatial Features of the Hungarian Banking System</b>	
<b>– Regional Expansion of Banking Innovations</b>	<b>55</b>
5.1 Gradual transition from local to nationwide branch banking	55
5.1.1 The golden age of local unit banking	55
5.1.2 The nationwide branch banking	
– phases of network building and centralization	57
5.1.2.1 Creation of interests in the regions	
– building bank affiliate networks	57
5.1.2.2 The beginning of arms length banking	
– the rise of branch networks	62
5.2 Territorial differences in the Hungarian banking system	68
5.2.1 Measuring banking network density	68
5.2.2 The geographical distribution	
of banking stocks and flows	77
<b>6 The Banking Functions of the Urban Network</b>	
<b>in the Early 20<sup>th</sup> Century</b>	<b>95</b>
6.1 Surveying the central-place banking functions of cities	95
6.2 The central places of the Hungarian banking network	103
6.2.1 The hierarchical ranking of cities	
by bank deposit distribution	103
6.2.2 Hierarchical ranking of cities by asset distribution	114
<b>7 The Banking Network of the Hungarian Regions</b>	<b>127</b>
7.1 The West loses its pre-eminent position	
– banking markets of Transdanubia	128
7.1.1 Declining the earlier dynamics	
– transformation of the traditional urban network	128
7.1.2 Belated development of regional financial centres	131
7.2 Retarded modernization	
– banking markets in Upper Hungary	134
7.2.1 Economic and social conditions of urban settlements	134

7.2.2 Declining performance of a sparse banking network	135
7.2.3 The banking centres of Upper Hungary	137
7.3 Region with large disparities – banking functions of cities in the Great Hungarian Plain	142
7.3.1 Rise of the counter pole cities: the most dynamic regional banking centres of Eastern Hungary	143
7.3.1.1 Emergence of a dynamic urban belt	143
7.3.1.2 The role of regional banking centres in the formation of innovation zone	147
7.3.2 Internal periphery or peculiar development path – limited banking functions of the agricultural market towns	154
7.3.2.1 Market towns without central-place banking functions in the Central Great Plain region	154
7.3.2.2 Socio-economic features strongly determine local banking functions	159
7.4 The region with high contrasts – the banking markets of Transylvania	168
7.4.1 The socio-economic conditions of the region	168
7.4.2 Financial markets in Transylvania rapidly catching up	169
7.4.3 The banking centres of Transylvania	174
<b>8 Outlook</b>	<b>183</b>
References	187
List of place names	195

## LIST OF FIGURES

- Figure 1** Branch and affiliated bank networks of the four largest Hungarian banks having their headquarters in Budapest, 1914 / **59**
